

Dear colleagues,

As part of our ongoing effort to support all members of the community, we are sharing general guidance for employees who may be planning international travel.

Due to evolving immigration policies and border procedures, we encourage all travelers to review UCOP’s [international travel guidance](#), which include resources for planning ahead and understanding potential re-entry considerations.

If you have questions or anticipate that your travel plans may require additional support, you may wish to consult with an immigration attorney or campus support resources to help you make informed decisions.

Sincerely,

Mary Lou D. Ortiz
